

## **COVID-19 Dancer/Guardian Preparedness and Response Plan**

In accordance with Executive Order 2020-97, Dancer institutes this COVID-19 Preparedness and Response Plan ("Plan").

Participants with questions are encouraged to contact Jodie Randolph via email at [jodie@jodierandolphdance.org](mailto:jodie@jodierandolphdance.org)

### **1. Preventative Measures**

#### **a. Cleanliness and Social Distancing**

Dancer abides by the recommended social distancing and other safety measures and establishes the following:

- Gatherings, where social distancing cannot be maintained, are discouraged;
- Dancers are required to maintain physical distance even when on break, as well as before and after class/rehearsal hours;
- Dancers are required to wear a mask at all times.
- Parents are NOT allowed to enter the building unless handling office business, or emergency situations.
- Dancer utilizes water fountains ONLY for refill, no physical drinking allowed;
- Dancer understand the importance of personal hygiene;
- Dancers interactions with the general public are modified to allow for social distancing and additional physical space between parties;

#### **b. Supplemental Measures Upon Notification of dancers COVID-19 Diagnosis and/or Symptoms**

A dancer with a COVID-19 diagnosis or who displays symptoms consistent with COVID-19 must be immediately removed from the dance space.

In response to a confirmed diagnosis or display of COVID-19 symptoms, that individual must inform all employees, owners, dance parents, or others who may have come into contact with the diagnosed/symptomatic individual in the 48 hours preceding the onset of symptoms of a potential exposure;

All dancers who worked in sustained, close proximity to the diagnosed/symptomatic individual (i.e., those employees/dancers who worked within six feet of the diagnosed/symptomatic individual for at least ten minutes) in the 48-hour timeframe are also removed from the studio for at least 14 days or submission of a negative COVID-19 test; however, should these exposed employees/dancers later develop COVID-19 symptoms and/or receive a confirmed diagnosis, they may not report on-site until all return-to-studio requirements are met, defined below.

## 2. Dancers' Self-Monitoring

The following dancers should **not** report to the dance studio if an individual in their household or dancer has been exposed to the following:

- Dancers who are currently and atypically suffering from symptoms of COVID-19, such as fever of 100.4 degrees or greater, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, sore throat, new loss of smell or taste, congestion or runny nose, and/or gastrointestinal problems, including nausea, diarrhea, and vomiting, whether or not accompanied by a formal COVID-19 diagnosis;
- Dancers who, in the last 14 days, have had close contact with and/or live with any person having a confirmed COVID-19 diagnosis;
- Dancers who, in the last 14 days, have had close contact with and/or live with any person who is atypically suffering from symptoms of COVID-19, such as fever of 100.4 degrees or greater, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, sore throat, new loss of smell or taste, congestion or runny nose, and/or gastrointestinal problems, including nausea, diarrhea, and vomiting.

Such dancers may only resume in-person work upon meeting all return-to-work requirements, defined below.

### a. Daily Screenings

To prevent the spread of COVID-19 and reduce the potential risk of exposure, Company screens dancers and visitors on a daily basis at dedicated entry points;

Dancers are expected to answer NO to the following questions before entering the studio, anyone who answers YES to one of the following question, may NOT enter the studio.

1. Are you currently and atypically suffering from any of the following symptoms - fever of 100.4 degrees or greater, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, sore throat, new loss of smell or taste, congestion or runny nose, and/or gastrointestinal problems, including nausea, diarrhea, and vomiting?
  - a. Temperature checks are performed daily on ALL dancers.
  - b. If yes, access is denied, and dancer is advised to self-isolate/self-quarantine at home, until dancer is permitted to return to work as defined below.
2. Have you lived with, or had close contact with, someone in the last 14 days diagnosed with or displaying the symptoms of COVID-19?

- a. If yes, access is denied, and dancer is advised to self-isolate/self-quarantine at home, until at least 14 days after the close contact.
3. Have you travelled internationally in the last 14 days?
    - a. If yes, access is denied, and dancer is advised to self-isolate/self-quarantine at home, until at least 14 days after the return from travel.

Dancers who develop symptoms during class or rehearsal time must immediately report to their instructor/ supervisor.

#### **b. Return-to-work/Dance Requirements**

Dancers who were themselves diagnosed with COVID-19, or experienced symptoms thereof, as defined by the Daily Screening process, may only return to the dance studio upon confirmation of the cessation of symptoms and contagiousness, proof of which may be acquired via the test-based strategy or the symptom-based strategy.

The test-based strategy is preferred but relies upon the availability of testing supplies and laboratory capacity. Under this strategy, dancers may discontinue isolation and return to the dance space upon achieving the following conditions:

- Resolution of fever without the use of fever-reducing medications;
- Improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**
- Two consecutive negative results from COVID-19 tests conducted at least 24 hours apart and in accordance with the current FDA/CDC-recommended procedure.
- Under the symptom-based strategy, dancers may discontinue isolation and return to the dance space upon achieving the following conditions:
  - At least 3 days (72 hours) have passed since recovery defined as resolution of fever without the use of fever-reducing medications;
  - Improvement in respiratory symptoms (e.g., cough, shortness of breath); **and**
  - At least 10 days have passed since symptoms first appeared.

Dancers who came into close contact with, or live with, an individual with a confirmed diagnosis or symptoms may return to work after either 14 days have passed since the last close contact with the diagnosed/symptomatic individual, or the diagnosed/symptomatic individual receives a negative COVID-19 test.

### **3. Plan Updates and Expiration**

This Plan responds to the COVID-19 outbreak. As this pandemic progresses, Company will update this Plan and its corresponding processes.

This Plan will expire upon conclusion of its need, as determined by Company and in accordance with guidance from local, state, and federal health officials.

All Dancers will read and submit an acknowledgment to this policy.

**ACKNOWLEDGMENT**

By signing below, Dancer acknowledges receipt of and training on the following:

- Dancer understands it is their responsibility to review and understand the above.
- Dancer acknowledges and agrees that they will comply with all safety and COVID-19 procedures implemented by the Company.
